

e-CF compliant online tools, certification guidance, job matching and placement

Maarten Dolf Desertine,
Business Development Manager

**We turn skills
into reputation**

ICT professionalism: maturing the ICT profession

- **Objectives** – EXIN mission, since it was established in 1984, is to professionalize the ICT-professional and the ICT-field.
- **Achievements** - with 30 years of experience in certifying the competences of almost 2 million ICT-professionals worldwide, EXIN is the leading and trusted authority in the ICT-market.
- **Lessons learnt** – EXIN embraces e-CF. One language for competences and encouraging mobility of the ICT-pro.

EXIN's (3) key messages

- 1. Initiative** -> EXIN started validating ICT professionals competencies based on e-CF
- 2. ICT professionalism** -> is key in all projects. EXIN supports ICT professional in his/her career/development
- 3. e-Leadership** -> Turning ICT into a major enabler of new business, products & services requires inspiring leadership. *EXIN's e-Competence Assessment helps to identify and recognize such e-leaders, based on their experience, understanding and soft skills.*
